In the last three days the country
in and surrounding Las Vegas has
been soaked with one of the heaviest
and most beneficial rainfalls of the
year. Snow and all the rainfall has
amounted to 1.25 inches. The first
snow amounted to three inches the
second to an inch and the rain follow-
ing amounted to .35 inches totaling in
rain to 1.25 inches. These rains and
snows came down without ostentation
and soaked well into the ground as
they fell and will prove a wonderful
benefit for the country.

Working in the interest of the re-
publican party a number of experi-
enced campaign orators tomorrow will
start out on a tour of San Miguel
county. In spite of the rain and the
mucky roads caused by the downpour
there have been a large number of
volunteers for the county campaign.
The county central committee under
the direction of its chairman, Secun-
dino Romero, has arranged for a
schedule for the speakers. The en-
tire county will be covered and the
orators will arrive in Las Vegas Mon-
day night of next week, in time to
cast their votes at the first state elec-
tion on the following day.

The Clothes You Dread to Wash

and iron are the flat pieces,
the big and heavy counter-
panes, sheets, tablecloths, bol-
ster cases, pillow cases, etc.,
and the innumerable small
pieces that take up so much
time the napkins, towels, rags,
etc.

Why bother with them? We
will do these satisfactorily,
quickly and cheaply.

A few cents a piece is the
charge.

Word has been received from Cali-
fornia saying that the condition of
the Rt. Rev. John Mills Kendrick, bishop
of New Mexico diocese of the Episco-
pal church, is critical. Bishop Ken-
drick went to Pasadena several weeks
ago for a rest in the hope of being
benefitted by a change of climate. In
his absence the counsel of advice of
this diocese has taken charge of the
affairs of the church.

NEW SAFETY RULING.

Washington, Oct. 30.—A sweeping
interpretation was given today by the
supreme court of the United States
to federal safety appliance acts, when
it held that the law is violated by
shipments from one point in a state
to another point in the same state, if
carried in a car not properly equipped
but which is used on a railway that is
a highway for interstate commerce.
